April

*Songbirds' joyful music and
the early springtime flowers
Colorful umbrellas opened
wide for April showers.
Days are brighter,
Hearts are lighter,
Promise fills the air.
The Gifts of April bring us
Special happiness to share.*

A total solar eclipse will take place on Monday, April 8, 2024, visible across North America and dubbed the **Great North American Eclipse** by some of the media. A solar eclipse occurs when the Moon passes between Earth and the Sun, thereby obscuring the image of the Sun for a viewer on Earth. A total solar eclipse occurs when the Moon's apparent diameter is larger than the Sun's, blocking all direct sunlight, turning day into darkness. Totality occurs only in a narrow path across Earth's surface, with the partial solar eclipse visible over a surrounding region.
