October

**Autumn leaves of red and gold
that crunch beneath your feet,
Pumpkins on front porches,
candy corn, and trick-or-treat,
Tart and tangy cider,
apples ripened on the trees,
A hint of winter coming
on the chilly autumn breeze.**

What is a SuperMoon?

There will be a full SuperMoon on October 17. It will be a Super Hunter's Moon and the closest full supermoon for 2024. After the harvest moon comes, the hunter's moon is the preferred moon to hunt summer-fattened deer and fox unable to hide in bare fields. Like the harvest moon, the hunter's moon is also particularly bright and long in the sky, giving hunters the opportunity to stalk prey at night.
